

Lesson 3: Home Page

Once you have successfully logged in to your Profile. You will be taken to the **Home Page**. This page gives you an overview of your account.

You will see a panel on your home page on the left hand side containing **Services, My Health and My account**.

From here you can view lab results, book appointments, request repeat prescriptions, email your GP, view your health information and update your address and phone numbers. You can also change your email address.

This panel will be visible from every page on your portal.

To the right of the pane you will see a landing space showing any unread messages and the last 7 days read messages.

You can also compose emails from the landing space.
